### Electronic Safes

#### **Electronic locking facility with Swipe Reader**

Godrej, the name synonymous with trust, reliability and innovation, has been catering to security problems of millions of its customers across the globe for more than 100 years. Commencing with the manufacture of locks and keys, today Godrej is the pioneer of highly sophisticated security systems which assure safety to nationalized banks, financial institutions, jewellery showrooms, offices and homes.

Poised on the threshold of revolutionizing security and to counter the ever increasing threats of burglary, Godrej presents E-Swipe, an Electronic Safe - the latest in ensuring the complete safety and security of your valuables. This electronic safe has been designed to offer very high degree of safety, ease of operation and reliability.

#### **Key features that provide High-level protection**

The E-Swipe Features the sophisticated "Audit Trail" facility. This enables the safe to retain, in its advanced memory, the transactions that have been performed on it. It is not just a handful of transactions. The memory is large enough to record the last 100 transactions - more than adequate to meet the complete security concerns of the user. Not only that, the complete data can be printed.

*All it takes is a swipe to  
(Protect your valuables.)*

**Superior features for high-level safety and convenience**

- Operation by a standard credit card or 4 digit password.
- Motorized opening of boltwork.
- Autofreeze facility for greater password protection.
- Mechanical override for emergency openings
- Heavy duty push button keypad.
- Can be fitted inside a standard cupboard.
- Master password facility.
- Low battery indication.
