

POPULAR SAFES

Also available with coin slot.

Daily Cash Transactions in shops and offices entail small pools of cash to be temporarily stored, till they are deposited in the bank or disbursed. Often, this cash is kept in cupboards, drawers of cash counters, tables, etc. in the absence of more secure equipment. A small time burglar using a ordinary tools can easily overcome the resistance offered by such equipment and make good with valuables.

To satisfy such needs especially in low fire risk areas, the Godrej popular safes can be installed at the workplace for easy access.

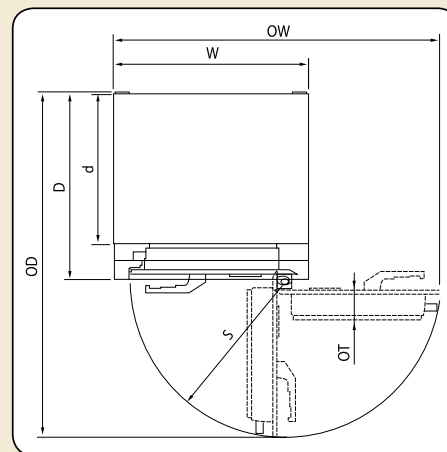

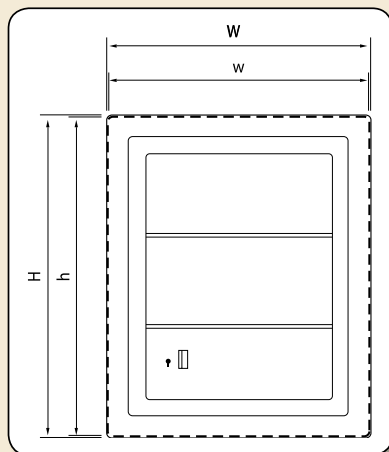

The Godrej Popular Safe has a multi bend body which is fully welded and is far superior to riveted joints. This ensures greater security against attempts to break open the safe at any point and also provides adequate resistance to the impact of hammer blows.

The Key features of Godrej Popular safes

- Fully welded multi-bend body ensures greater security.
- A heavy plate door hinged on strong pivots in a solid-steel bearing block provides adequate resistance to impact of hammer.
- 3-shooting bolts behind a rebate while the rear edge of the door acts like a continuous vertical bolt.
- The lock and vital parts of the bolt work are protected with a drill-resistant armour plate.
- A 7-step process imparts corrosion and scratch resistance.
- A locker with a flap door and lock provided to facilitate the storage of items which need additional security.
- Godrej high-precision, dual control, 6-lever lock operated by two keys.
- A 3-wheel numerical combination lock can be provided if requested at the time of Delivery.
- Popular safe also available with a coin slot, measuring 12 * 80 mm, and baffle tray inside.
- Available in Dual Tone powder coated, Dark Grey/ Light Grey colour finish.
