Fire Resisting Safes

Your home, a haven for you, can sometimes, without warning, become unsafe for your valuables. We're not talking about theft or burglary, but rather a threat that's even more terrifying. Fire.

Fire gives no prior warning, and can completely destroy property.

Your valuables at home — jewellery, cash, and other assets — can be insured, but how do you recover important documents once they are lost in a fire?

Actually, it's very simple. You don't need to worry about recovery. Because with Godrej's Safire, the loss of valuables due to fire is greatly minimised.

Why just at home, even in offices Safire finds a place in the boss' room. Securing sensitive documents, protecting classified information ... Safire does it all.

Fire protection like never before

Safire has been designed keeping in mind the strength and the frightening power of fire.

- Designed to withstand fire
- Tested for fire endurance for up to one hour at CBRI, Roorkee, India.
- Special tongue and groove construction to prevent hot gases and smoke from seeping in
- Option of two key locks or one combination lock and one key lock or one Electronic lock
- One sliding tray and one shelf to maximise interior storage space
- Attractive 2-tone powder-coated finish

Give your valuable documents
(Complete Protection against Fire.)

The Safire Electronic safe comes with an electronic digital lock, with 4-16 digit password facility for flexibility and convenience.

Sturdy steel body for Strength and Rigidity

Sturdy locks give additional security against theft
